

Requirement to use LabCorp as PCHP's preferred provider of lab services.

In order to better control rising medical costs, PCHP has contracted with LabCorp of America to become its preferred provider of lab services. **As required by your Agreement with PCHP, please begin referring your PCHP Members to LabCorp for all lab services.** LabCorp offices are conveniently located throughout PCHP's Service Area. If you are not familiar with the closest LabCorp office, you may locate it by typing in your zip code at: <https://www.labcorp.com/labs-and-appointments>.

Should your PCHP Member patient wish to use a lab other than LabCorp, he or she may do so through the pre-authorization process. The pre-authorization process is necessary in order for PCHP to assist the Member in locating another contracted laboratory; as you know, PCHP does not pay for non-contracted laboratory services except in unusual and very limited circumstances.
